Hi Marit,

RE: TOMCO Holliday Block M/47/0120

I spoke with Bill James one of the managers in the Wildlife program. Bill indicated that you and he are trying to get together to discuss the mitigation measures.

As you and I discussed, I will basically be deferring to DWR for a mitigation plan that they consider adequate. I will expect that this plan will be part of the amended NOI and it will meet the rule under R647-4-109.5. I know that you are coming up on the deadline. If you need more time, let us know. I would rather it be done thoroughly, rather than having you feel like it is something that has to be put together in haste.

April

Marit,

I got your message about the wildlife stipulation being left out of the conditional approval letter. This matter will have to be taken up with either Paul or Dana. I did not have any part in writing this conditional approval letter.

Regards,
April

Paul,

I sent you a voice mail about this. I didn't have a hand in writing this, so I am not sure how to address her concern if the letter doesn't stipulate the wildlife condition.

Hi April,

Got this from the lawyers,

If this conditional approval is issued and does not condition the wildlife issue, how is that issue still on the table as needing to be dealt with (just playing devil's advocate here ...)?

I think we have good language, suggested language is being discussed within DWR.

Thanks,

Marit
